Greenhouses and Nurseries, Western Springs, Ill.

IMPORTANT.

Beginners in the use of forcing bulbs or other forcing dormant imported stock (or any other plants we sell), are invited to ask us for special growing instructions on any kinds they are not familiar with.

We can supply the same from the best sources.

TO FORCERS OF Forcing Bulbs, Azaleas and Like Imported Stock.

Some advantages we claim in caring for
your orders.

FIRST EARLY SHIPMENTS.

We import by fast steamer, one-fourth of our Roman Hyacinths, Freesias and Paper Whites, needed for Thanksgiving and Christmas trade. By doing this we put those kinds of bulbs in your hands two weeks earlier than if you wait for your entire order from Holland or France.

All bulbs bought of us will be A No. 1 on delivery and if not satisfactory then, in every way, may be returned or exchanged.

We invite the most critical inspection on arrival and customers are not expected to keep or use any that are not as represented herewith.

We ship no plants or bulbs in original cases without inspection at New York or Chicago.

If any of our stocks open up poorly on arrival we can replace them with satisfactory stock within five days, at original prices. Rejected stock from Europe cannot be replaced under six weeks, or must be repurchased here at advanced prices and delays.

LILIUM HARRISII.

We are strictly headquarters for these, controlling some of the best bulbs in Bermuda. The packing and shipping will be supervised by our own traveler.

We Ship From Chicago or New York.

FIELD OF VAUGHAN'S CALIFORNIA GROWN CALLAS, FROM A PHOTOGRAPH.

WHITE CALLA.

(CALLA AETHIOPICA.)

The Calla is one of the most profitable and easily grown bulbs a Florist can buy, and we take great pains in securing every year bulbs which are well ripened and cured, securing our stock from growers in California who thoroughly understand the raising, curing and shipping of these bulbs. Owing to the use of the Calla as a partial substitute for *Lilium Harrisii* and *Longiflorum* the sale of the former has increased very much and we have never been able in the past few years to secure enough bulbs to fill all orders for the larger sizes. We have arranged again this year for a larger amount of bulbs but would advise early ordering by our customers in order to be sure of their supply.

FREESIA REFRACTA ALBA.

This is one of the most profitable and useful bulbs a florist can grow. Equally good for forcing or pots and can be had in flower from Christmas on if properly grown. A good way to grow these is to plant the bulbs around carnation benches, in this way utilizing space which is going to waste.

White Flowers and Large Bulbs are to be had from the stock quoted below. We always believe in selling this stock by samples and are ready to submit same for comparison as soon as bulbs arrive. *Freesias* arrive the earliest of the Fall bulbs.

CALLA. SPOTTED-LEAVED

(RICHARDIA MACULATA)

This variety is similar to the well-known White Calla, but has glossy dark green foliage, beautifully spotted with white, making it a splendid ornamental plant even when not in bloom. The flowers are pure white with a dark throat; it makes an exceedingly valuable decorative plant when bedded out in summer.

Choice bulbs per 100, \$3.00.

LILIUM HARRISII.

INDISPENSABLE FOR EARLY FORCING.

In addition to securing our entire supply of these Lily Bulbs from one concern, we shall this year supervise through our own representative the packing and shipping of the crop. We are doing our best each season through our growers to weed out diseased plants, cure the bulbs carefully when digging, and avoid mixture of Longiflorum and other types. Under these conditions we ask your orders for the best selected true Harrisii that can be obtained from Bermuda.

LILIUM DOEII.

We offer a limited quantity of this healthiest type of Lilies grown on the Island of Bermuda. While the plants resemble the best types of Longiflorum they produce more flowers than that kind, in fact, nearly as many as Harrisii and they are more healthy.

JAPAN LILIUM LONGIFLORUM (Regular Type.)

Our Japan growers are instructed to avoid early digging and give us only ripened bulbs such as should with reasonable care give good results when forced under glass. While we cannot make any guarantee as to the result of forcing Lily Bulbs our Japan growers understand this stock as well as any exporters from that country.

The true variety under this name will produce more flowers per bulb than other types but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent. true type.

L. LONGIFLORUM GIGANTEUM (Dark Stem.)

While ordinarily considered later than the other three varieties of Longiflorum, it has proven with our customers as early as any and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

LILIUM CANDIDUM

"THICK PETAELED."

This has been very satisfactory and profitably forced by several customers this past season. It comes free from disease, even and pays. We furnish cultural directions for forcing.

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "THICK PETAELED" bulbs and they have given our customers excellent satisfaction. We offer it as the best and most substantial type of Liliium Candidum.

NARCISSUS.

PAPER WHITE GRANDIFLORA.

It is a well-known fact that of late years this Narcissus has shown a tendency to come blind and especially so when grown from small bulbs

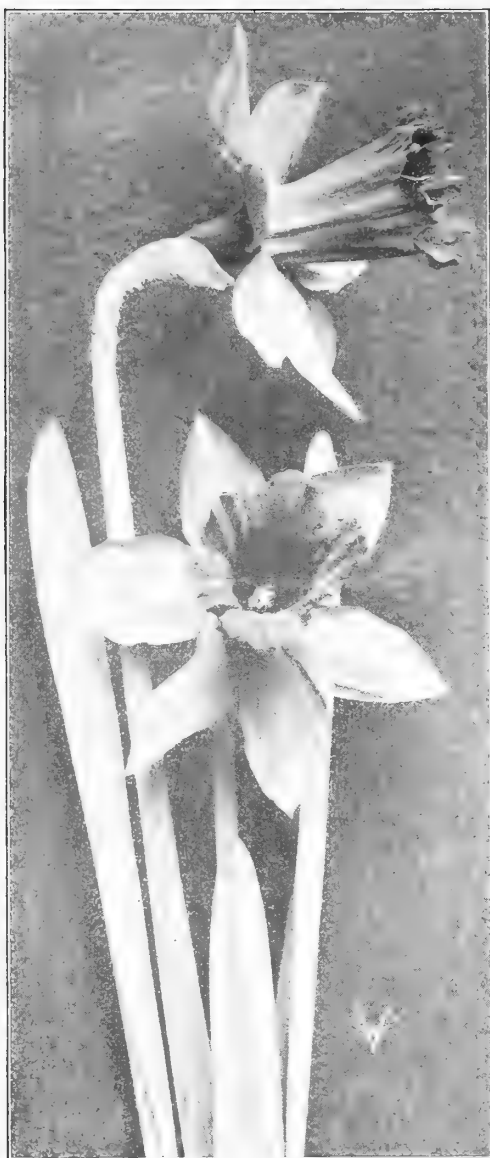

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star" brand is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading of "Fancy" is a selected grade from the general stock. As stated before our supply of Giant-Flowering Bulbs is limited, and we can only supply to customers who gives us a general order for other Fall Bulbs. We will be pleased to quote a price on application. Paper White, Grandiflora Fancy. Per 100, \$1.25; per 1000, \$8.75.

SELECTED MOTHER BULBS.

These are the pick of the crop, being bulbs of extra large size and will throw nearly twice as many flowers as the ordinary grade, thus making up for the slight additional cost.

LILY OF THE VALLEY.

Our London Market brand will be of the same high quality Pips as used for forcing for Christmas by the London, England, growers. It is the finest selection which money will buy in Germany and we shall make it of good value at the price asked. For medium and late forcing our Premium Brand will be of equally high quality. We shall deliver this stock as early as the same can be secured from the growers after maturity. Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size. Such as with proper handling ought to give most satisfactory results.

TYPE OF OUR COLUMBIAN CINERARIA

VAUGHAN'S PANSIES.

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. Trade Pkt., 50c.; ½ oz., 15c.; ¼ oz., \$1.35; oz., \$5.00.

PSYCHE. Not one of the many Pansy varieties has such a winning appearance as Psyche. The plant is perfect in habit and very floriferous. Each flower is elegantly curled and undulated and in every respect a beauty in form and color. The characteristic five velvety violet blotches or eyes are surrounded by a broad white edge. Comes true from seed. Trade Pkt., 50c.; ½ oz., 80c.; oz., \$5.00.

BRIDESMAID. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty with the finest Apple-blossom, and most strikingly setting off the dark blotches of the center. Trade Pkt., 25c.; ½ oz., 50c.; oz., \$3.75.

RUBY. This new variety embraces the richest shades of red colors from scarlet, scarlet-orange, wine-red to rose. Originating from the Giant Cassier class it possesses the same regular dwarf habit of the plants and the large size and fine form of the flowers. Trade Pkt. (250 seeds) 25c.

GIANT PRETIOSA. The flowers of this novelty are similar to those of the Masterpiece Pansy, each petal is marked with a very large blotch of deep violet color, these blotches are surrounded by a brilliant crimson rose background and the ground color is margined with a pure white edge. A very effective and bright variety, and we are sure that this novelty will please our customers. Trade Pkt. (250 seeds), 25c.

NEW ORCHID--FLOWERED PANSIES. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of the most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals are marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and sort of plaited, which gives the flowers their resemblance to orchids. The colors range in the terra cotta shadings as well as in the flesh, orange, rose, pink and lilac. Trade Pkt. (250 seeds), 25c.

VAUGHAN'S "ELITE" MIXTURE OF PANSIES. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors, nor any other of the well-known kinds. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures and such new and novel kinds as listed above. It is a mixture that will please everybody who knows and likes Pansies and can appreciate quality in color, shape, size and substance, in fact everything that makes a perfect Pansy. Trade Pkt., 50c.; ½ oz., \$1.50.

VAUGHAN'S INTERNATIONAL PANSIES —THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it is the best general mixture in existence and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898, and a medal at the Buffalo Exposition in 1901. It contains the cream of the Pansies listed on this page and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture and which cannot be had in any other way. We beat the world on Pansies. Price, per oz., \$10.00; ½ oz., \$5.00; ¼ oz., \$1.50; trade pkt., 50c.

BONE BLOOD AND POTASH.

The best brand of fertilizer for florists' use is the Bone, Blood and Potash Mixture. The advantages of this fertilizer are its immediate action and its duration, the blood and potash being for immediate consumption while the bone begins to act after the action of the two former has ended.

This mixture can be used with great success on Roses and especially on Carnations, and as an addition to soil for pot plants in general. Its value cannot be overestimated for vegetable forcing under glass. If to be used in liquid form with cow manure a six inch pot full to a barrel is a good proportion, or it can be strewn thinly over loosened benches before watering as a top-dressing about once a month. When mixed with soil a small pail of this fertilizer to the cubic yard is sufficient.

For Chrysanthemums it is the thing.

BOSTON FERNS.

*Nephrolepis
Exaltata
Bostoniensis.*

This popular Fern has proven one of the best decorative plants of recent introduction. It is a rapid grower, works up fast and is a seller. The distinctive feature of this beautiful Fern is, the fronds are much larger than the common Sword Fern and do not stand so stiff, but droop over in a graceful manner. Excellent for making large specimen plants. Every florist should grow the Boston Fern. We have the finest stock in the West. All our plants are pot-grown, bushy stock, well furnished with fronds from the pot up, and cannot be compared with the cheap, long-drawn-up, lifted stock from the bench.
